

The Sound of Revolution

Warzone

The sound of
revolution
It's coming again from the streets
A lion's roar, a tribal beat
It's time for you to give a hand
And fight the battle to the promised land
The sound of
revolution
The youth are getting restless
But now there's many more
Living in the streets
Times are worse than before
Now you know it's time to make a move
If you do nothing, then you all lose
The sound of
revolution
The line's been drawn, the battle's clear
It's time for pride and no more fear
The revolution now is in your heart
And together we have
a part
The sound of
revolution
