

Fly Away

[Dr. Sin](#)

No, don't wanna
Bring you down
It's lurking all around
Nobody knows what lies
Behind the door
All that I've seen
I can't take it anymore
Living and dying, loving
And hating
(I will show you)
Look on the other side
Living and dying, loving
And hating (take my hand)
Just searching for a sign
Fly away, through
Another day
All the sorrows fade
Time will heal any
Pain you feel
Just fly away
No, no way we're
Looking back
Believe me that's a fact
