

We Are One

Ziggy Marley & The Melody Makers

There is a knowledge we all know
Yet we don't know, yet we don't know
There is a knowledge we all know
Yet we don't know, yet we don't know We are one, we are one
We are one, we are one There is a spirit we all know
Yet we don't know, yet we don't know
There is a spirit we all know
Yet we don't know, yet we don't know
We are one, we are one
We are one, we are one Is it so hard to love one another, my brother?
To see each other as we are, my sister?
The earthly family, forever Wake up, wake up
Wake up now, wake up now
Wake up, wake up
Wake up now, wake up now Wake up to the realization
That we are all of one nation
Everyone, let's have some fun
Under the moon, the stars, the sun 'Cause we are one, we are one
We are one, we are one
We are one, we are one
We are one, we are one
There is a knowledge
We are one
There is a spirit
We are one, we are one
We are one
