

Hometown Blues

Steve Earle

I wish I'd never come back home
It don't feel right since I've been grown
I can't find any of my old friends hangin' 'round
Won't nothin' bring you down like your hometown I spent some time in New Orleans
I had to live on rice and beans
I hitched through Texas when the sun was beatin' down
Won't nothin' bring you down like your hometown Home is where the heart is
Ain't that what they always say
My heart lies in broken pieces
Scattered along the way So don't think about me when I'm gone
I don't mind travelin' alone
You are the sweetest little thing that I ever found
But won't nothin' bring you down like your hometown
Alright Wilson pick it Yeh home is where the heart is
Ain't that what they always say
My heart lies in broken pieces
Scattered along the way So don't think about me when I'm gone
I don't mind travelin' alone
Hey you are the sweetest little thing that I ever found
But won't nothin' bring you down like your hometown
Ah sugar, won't nothin' bring you down like your hometown
