Lay Down Your Blade

Joy Wellboy

Lay down your blade

Believe me when I pray
to keep us far away from harmâ€™s way
You know my devil is afraid
I know your devil is afraid

You say you donâ€™t need to be
a gentleman to me
First youâ€™re sick and then you fade
First youâ€™re sick and then you fade

Lay down your blade
I will lay down my blade
Lay down your blade
I will lay down my blade

Believe me when I say
We shouldnâ€™t go back to the same place
Kids are blue and sky is grey
Kids are blue and sky is grey

Forever and a day
Thereâ€™s not a place on earth I would stay
And thatâ€™s the reason why I stray
That is the reason why i stray

Lay down your blade
I will lay down my blade
Lay down your blade
I will lay down my blade
