

# Winterlovers

## Manic Street Preachers

Winterlovers, winter trees  
The beauty of dead industry  
The stuff we saved, so fatally  
Comes crashing down around me Winterlovers, winter trees  
Winter longing, falling free  
Shielding what we need to see  
A deep true love of this country Winter is as winter was  
I look this way just because  
Winterlovers love like brothers  
Gives us hope for the ties that splinter Winterlovers, winter trees  
Winter longing, falling free  
Shielding what we need to see  
A deep true love of this country Winterlovers, winter trees  
Winter longing, falling free  
Shielding what we need to see  
A deep true love of this country
