

# Loving You

Stryper

Loving you, loving you, loving you  
I was so confused, not knowing what to do with myself  
I was being used, blinded I was headed for hell  
Then God saved me, pulled me from the heat  
Always on my mind  
What a blessing that was sent to me  
Together we will shine and I'm loving you  
I'm loving you  
Oh, I'm loving you  
I'm loving you  
Anger in my heart, life was such a drag for me  
Then I made a start to serve the living God, now I'm free  
You're my whole life, you're my lasting dream  
Always on my mind  
What a blessing that was sent to me  
Together we will shine and I'm loving you  
I'm loving you  
Oh, I'm loving you  
I'm loving you  
I'm loving you  
Oh, I'm loving you, hey  
Loving you, loving you, loving you
