

The Speed Of Life

Delta Goodrem

Yeah yeah yeah

How many times can you say that it's over?

How many ways can you say that I love you forever more?

How many times can you make love with your lover?

And how many lies how many lies can we live with ourselves?

Yeah yeah

How many times will you change your religion?

And how many gods do ask for the answers?

What has to break before you make a decision?

Cause you never know which way to go you just get of the bus and go home

God tell me the truth how much is too many

Give me a sign if we've crossed a line

Cause everyone else seems to know the direction

I 'm frozen not knowing and I'm out of breathe from the speed of life
and I'm shaking' I'm freezing and I'm scared to death of the speed of life
the speed of life

How many dreams can you break till your broken?

How many fights can you fight till you fall down on your knees?

How many doors can get slammed in your face till one of them opens?

It's beautiful, incredible it's the danger of life

God tell me the truth how much is too many

Give me a sign if we've crossed a line

Cause everyone else seems to know the direction

I 'm frozen not knowing and I'm out of breathe from the speed of life
and I'm shaking' I'm freezing and I'm scared to death of the speed of life
I'm shaking and it's freezing cause I'm scared to death of the speed of life
