

# Future Belongs to Me

## The Grand Astoria

She said it's time  
We have to go  
Down on the long and winding road  
Trial of tears and cry of love  
More than enough  
How can you dream of world to see  
Living from salary to salary?  
Down, down, down  
Sky meets the ground

Time will pass and time will go  
Leaves no footprints in the snow  
Just traces in a fragile air  
And a curl of silver hair  
No one knows when time is right  
Will it bring me joy and light  
Or darkness and insanity?  
My future still belongs to me

There is a place inside your head  
Lost and abandoned  
Makes me sad  
Beautiful childhood memories  
Covered with dust  
(They say) Learn from mistakes and it can help  
You better blame nobody but yourself  
Down, down, down  
Six feet under ground
