

Lift Me Up

Twiztid

[Verse 1: Monoxide]

And I can feel it now

It's more obvious than ever there's a problem and I better try to figure out

If I'm willing ta solve em or ignore em like a middle child

Seems like it's been awhile

Since I had an answer to one of life's riddles, I'm riddled out

And now I'm stuck in this mental house and these four walls

Are driving me crazy and I'm begging em all

To take a different route, somebody save me

All I see is madness on a daily

It's getting out of hand like droppin a baby

All the pills I keep slappin away when they try to medicate me

I'm a danger to my safety

And my angers got me strapped in a jacket at most times and lately

I re-act to the fact that it's all here to change me

With a middle finger right to the face and stay the same me

[Hook: Blaze]

(Lift me up)

In life the pressure so heavy that I feel I fallen to the wayside

If only I can get away from everything, spread my wings and then fly

(Lift me up)

I know I wasn't born on this earth to become a failure and die

If only I can get away from everything spread my wings and then fly

(Lift me up)

[Verse 2: Madrox]

Our life is unclear shed a heavenly tear

For father we still toughen it out down here

In the midst of mankind

Where moneys so tight they cuttin throats for pennies nickels and dimes

Hard to walk a straight line

When the road curves like a snake

And most leaders are cowards lies and fakes

Who shout out follow in fear I pose a question

Your response, stay strong son and pick a direction

I'm not sure if I possess the confidence to carry on

I'm only here for today and tomorrow we'll be gone

It's an example of scenarios

Use your time to leave a mark stronger than a miracle felt in a soul
To a believer, you don't have to say it twice
To a skeptic, I'm sure no proof will ever suffice
To a sinner, it was over before it ever began
To the lost and lonely, sometimes they only need a friend

[Hook: Blaze]

(Lift me up)

In life the pressure so heavy that I feel I fallen to the wayside
If only I can get away from everything, spread my wings and then fly
(Lift me up)

I know I wasn't born on this earth to become a failure and die
If only I can get away from everything spread my wings and then fly
(Lift me up)

[Verse 3:]

[Madrox:]

You can't stop greatness
It has a way of shining through any gimmick or fake shit
My aspirations to make it
Don't make it easy for somebody trying to do it for real better believe me
Fly with me flap your wings slow
Feel the ground beneath your feet begin to go
Away from me I'm excited with energy
A vision of clarity rise above the storm for solidarity

[Monoxide:]

And your popularity is a drop in the Bearing sea
And apparently your nothing but average
I'm a dangerous package
Drown you all in my daydream
I'm laughing like a jackal as I spread my wings and elevate free
I know you hate me
But in the grand scheme deep in your heart you wanna thank me
Cause were the same we
All looking for escape from pretty much the same things

[Hook: Blaze]

(Lift me up)

In life the pressure so heavy that I feel I fallen to the wayside
If only I can get away from everything, spread my wings and then fly
(Lift me up)

I know I wasn't born on this earth to become a failure and die
If only I can get away from everything spread my wings and then fly
(Lift me up)
