Pretend

Dragon Tales

Let's pretend we're driving daddy's car
Vroom vroom vroom, and away we go
Toot toot toot and turn the steering wheel
Vroom vroom vroom vroom and away we go
Fill it up, at the station, all you need is imagination
And you can go anywhere you wanna go when you just pretend

Get on your horse, and start to run
And set a course that's bound for fun
4, 3, 2, 1, Blastoff!! on a rocket ship to mars
Traveling all around the universe, close enough to touch the stars
On a trip of your own creation, all you need is imagination
And you can go anywhere you wanna go
When you just pretend, yeah, when you just pretend
