

# My Father Worked On Planes

## ANR

Climb above the water  
Above the clouds  
The wing outside is shaking  
The engine's loud

I listen to my heroes  
And the latest songs  
I become unafraid  
Of this plane I'm on

I'll live or die here  
So I'll never die

She's roaring through the ocean  
She's foaming at the mouth  
She's plowing through the water  
As we're heading south

A couple on my left  
Land is on my right  
We'll all crack once we've landed  
And slumber benign

I'll live or die here  
So I'll never die

My father worked with planes  
Not anymore  
So I should not complain  
Above this shore  
It's hard to keep his tools  
Or keep it pure  
When purity's not useful anymore

Shaking up the airway  
Quaking up the earth  
I'm looking at the paper  
Praying for rebirth

It's like the warehouse windows

Making all this sound  
For we might be the next ones  
Who are going down

I'll live or die here  
So I'll never die

I'll live or die here  
So I'll never die

---
