No Regrets

Dope

Going down, we're elevated, separated, liberated
Down, we're dedicated, medicated, celebrated
Over and over I keep losing myself
Lower and lower I keep sinking
Over and over I keep taking myself down
With no regrets for anything I did and I won't forget
To do it all again with no regrets, I got no regrets
Going down, I'm frustrated, aggravated, obligated
Down, I'm suffocated, complicated, separated
Over and over I keep abusing myself
Lower and lower I keep sinking
Over and over I keep beating myself down
With no regrets for anything I did and I won't forget
To do it all again with no regrets
For anything I did and I won't forget
To do it all again with no regrets, I got no regrets
Over and over I keep using myself
Lower and lower I keep sinking
Over and over I keep beating myself down
Going down, we're elevated, separated, liberated
Down, we're dedicated, medicated
With no regrets for anything I did and I won't forget
To do it all again with no regrets
For anything I did and I won't forget
To do it all again with no regrets, I got no regrets
I'll do it all again with no regrets
I'm elevated, liberated
With no regrets
I'm elevated, liberated
