In the Morning

JAWS

Every minute I feel you leaving, but I'll find a way.
Stood still waiting, will enjoy it someday.
The rain falls and flickers, September's on its way.
Said I found if for another day.

Please find joy at home, in the morning I'll be waiting right here.
Please find joy at home, in the morning I'll be waiting right here.

Dizzy waiting for the evening to sing another day.
Hold me down forever but I'll remove the way.
Clouds start to gather but I decide to stay.
Said I found it for another day.

Please find joy at home, in the morning I'll be waiting right here.
Please find joy at home, in the morning I'll be waiting right here.
