

# Bears

[Lyle Lovett](#)

Some folks say there ain't no bears in Arkansas  
Some folks never seen a bear at all  
Some folks say that bears go around eating babies raw  
Some folks got a bear across the hallSome folks say that bears go around smelling bad  
Others say that a bear is honey sweet  
Some folks say this bear's the best I ever had  
Some folks got a bear beneath their feetSome folks drive the bears out of the wilderness  
Some to see a bear would pay a fee  
Me, I just bear up to my bewildered best  
And some folks even see the bear in meSome folks drive the bears out of the wilderness  
Some to see a bear would pay a fee  
Me, I just bear up to my bewildered best  
And some folks even see the bear in meSo meet a bear and take him on out to lunch with you  
Even though your friends may stop and stare  
Just remember that's a bear there in the bunch with you  
And they just don't come no better than a bearSo meet a bear and take him on out to lunch with you  
Even though your friends may stop and stare  
Just remember that's a bear there in the bunch with you  
And they just don't come no better than a bearNo, they just don't come no better than a bear  
No, they just don't come no better than  
No, they just don't come no better than  
No, they just don't come no better than a bear
