The Last Chance Texaco (LP Version)

Rickie Lee Jones

A long stretch of headlights bends into I-9
They tiptoe into truck stops
And sleepy diesel eyesVolcanoes rumble in the taxi
An' glow in the dark
Camels in the driver's seat
A slow easy markBut you ran out of gas
Down the road a piece
Then the battery went dead
And now the cable won't reachIt's your last chance
To check under the hood
Your last chance
She ain't soundin' too good
Your last chance
To trust the man with the star
'Cause you've found
The last chance Texaco
The last chanceWell, he tried to be standard
He tried to be mobile
He tried living in a world and in a shellThere was this block busted blonde
He loved her free parts and labor hood
She broke down and died
She threw all the rods that he gave herBut this one ain't fuel injected
Her plug is disconnected
She gets scared and she stalls
But she just needs a man, that's allIt's her last chance
Her timing's all wrong
Her last chance
She can't idle this long
Her last chance
Turn her over and go
Pullin' out of the last chance Texaco
The last chance
