

Whatcha Gonna Do

Martina McBride

it's either black or white,
it's either wrong or right
you don't get to chose
something in between
baby you and me
we're either on, we're off, or we're through
so whatcha gonna do?
cause i can't keep waiting 'round this house,
expecting you to change, or lead me on and let me down
and every time you say you're sorry, you miss me, you want me, you need me
whatever,
i'm done listening to all you're talk talk talkin'
show me something true, or baby i'm walking out the door, and out your life, and out on you
so, whatcha gonna do?
who do you think i am
just some back up plan
or the love that changes you
keeps you coming home,
oh i deserve to know

are we on, or off, or through
baby, whatcha gonna do
cause i can't keep waiting 'round this house,
expecting you to change, or lead me on and let me down
and every time you say you're sorry, you miss me, you want me, you need me
whatever,

i'm done listening to all you're talk talk talkin'
show me something true, or baby i'm walking out the door, and out your life
ooooh, i can't keep waiting 'round this house,
expecting you to change, or lead me on and let me down
and every time you say you're sorry, you miss me, you want me, you love me
whatever,

and i'm done listening to all you're talk talk talkin'
show me something true, or baby i'm walking out the door, and out your life, and walking out on you
so, whatcha gonna do?
you could walk away, or decide to stay
either way, my sky's still blue
so baby, whatcha gonna do?
