

How Much Good (feat. Paolo Serra)

Pow-Lean

The boulevard is full of people floating down from the hill
It's saturday night and babe you're not with me
Somebody said teacher comes when the student's ready and clue in
What if a spider finds a crack after such a long time
but damn the crack is not that deep it's such a bad thing when you're not able to make up your mind
is like the sadness's the only thing that gonna makes you cry
you the stronger you my wonder baby, you're the only one
and after all those beers i think i'll go home
and lay my body tonight how much good did love do to me?
how long it gonna makes me bleed ?
i'm still waiting on a feeling is not ready to be,
what have i done i'm forsaken i didn't know what i did!
