

# Trapped Inside the Moment

[Callalily](#)

Years have passed oh  
I'm sure we had a blast  
We've been through bridges  
We've been through walls.  
We survived, we survived it all.  
I know you're innocent.  
We all know it was an accident.  
Things happened in a mile  
But I'm sure behind those pillows hide our little smiles.

Chorus:  
Don't ask me how,  
Don't ask me why  
Just sit beside the tree below that pretty sky  
Don't ask me how  
Don't ask me why  
As long as we've alive, we'll share

Intro:  
You've been with my brothers.  
Everywhere I go  
We'll swim the rivers that'll I never stop to flow  
You cry, I cry  
You die I die

Chorus:  
Will shine  
Will shine
