

Whole

[Rixton](#)

when you wake up and you find that i'm not there, crying for me. Put on your makeup and just let down your
hair don't loose sleep. I know you said were fine but I'm not sold. You try to take two halves to make them
whole and make them whole.

and make them whole.

and make them whole

and make them whole.

and make them whole. make them whole

make them whole

oh ohh When I wake up and i reach across the bed, your not there. I tried to save us but no one ever said love was
feared. I know you said we're fine but im not sold. I try to take two halves to make them whole and make them
whole.

and make them whole.

and make them whole

and make them whole. I know you said were fine but im not here to say goodbye, I'm sick of wasting all this
time when we both know. Yeah And life can move so fast I know we run in different paths but can we try to take
to halves to make them whole. and make them whole.

and make them whole

and make them whole.
