

Deciphering Me

Brooke Fraser

Friend, its getting late
We should be going
Weve been sat here beneath
These flickering neons for hours While I am cracking their code
You are deciphering me
For I am a mystery
I am a locked room in a tall tower Oh, can you feel the gravity falling?
Calling us home
Oh, did you see the stars colliding?
Shining just to show, we belong, we belong Your telescope eyes see everything clearly
My vision is blurred
But I know what I heard
Echoing all around While I am tuning you in
You are deciphering me
Not such a mystery
Not such a faint and far away sound Oh, can you feel the gravity falling?
Calling us home
Oh, did you see the stars colliding?
Shining just to show, we belong, we belong Its love, its love that holds us
We will be alright
Its truth, its truth that shows us
If well walk in its light Its love, its love that holds us
We will be alright
Its truth, its truth that shows us
If well walk in its light Oh, can you feel the gravity falling?
Calling us home
Oh, did you see the stars colliding?
Shining just to show, we belong Oh, can you feel the gravity falling?
Calling us home
Oh, did you see the stars colliding?
Shining just to show, we belong Oh, can you feel the gravity falling?
Calling us home, we belong
Oh, did you see the stars colliding?
Shining just to show, we belong
