Dyed In The Wool

Young Knives

It's so sad for us
When we find ourselves
Giving away
And it's a shame for us
When we find ourselves
Going to waste
So throw away the love that we made.
(I know I know)
And nothing's going to change that hopeless feeling
I get when you say you'll understand and I know you can't
There's no reason to be here
We should pack up and leave
I have never felt that way before totally alone

There's no reason to leave
I have never seen you act that way before
Totally exposed.
As you throw away the love that we made
(I know I know)
And nothing's going to change that hopeless feeling
I get when you say you'll understand and I know you can't
The longer it takes the more it goes to waste
I want to believe you but I can't feel a thing
The more that you get the less you are
And nothing's going to change that helpless feeling
I get when you say you'll understand and I know you can't
