

Next Time Around (live)

Mr. Big

We had the love slipped through our hands
We had our hearts break from the misunderstanding
It's all over now but we're still standing
Now I'm alone in this empty room
I've chased a shadow thinking of you
And what matters is that you and I surrendered
Chorus:
Gave it all we had to give
Loved and lost, we can love again
We build it up and tear it down
We'll do it right
The next time around
We had a choice two is to choose
Heads you win, tails you lose
Take the high road
Think it over or take it solo
(Chorus) I remember when it all came down
We had the love slipped through our hands
We had our hearts break from the misunderstanding
It's all over now but we're still standing
(Chorus)
