

You're Still Standin' There

Steve Earle

I've spent my life following things I cannot see
But just when I catch up to them, they slip away from me
Now I've been down a thousand trails I've never walked before
And I found out that without fail, they lead me to your door
And the world keep turning round and round
It leaves me hanging in the air
My heart keeps turning upside down
You're still standin' there
Now lately I see all the signs, I feel it in the wind
And the same thing happens every time that you come back again
Now I'll admit that there are nights when I sit up and cry
But sometimes I turn out the lights and pray you'll pass me by
And the world keep turning round and round
It leaves me hanging in the air
My heart keeps turning upside down
And you're still standin' there
Now since you've gone my empty arms have nothing left to hold
And your memory cannot keep me warm but it never leaves me cold
And the world keep turning round and round
It keeps me hanging in the air
My heart keeps turning upside down
You're still standin' there
And the world keep turning round and round
It leaves me hanging in the air
My heart keeps turning upside down
You're still standin' there
