## It's Only Time

## **Drake Bell**

Where did you go when I arrived What was that look, saw in your eyes nothing is what it appears I'm a bit more refined in my recent yearsShe said I wasn't even here She said I wasn't even She said I wasn't even here She said I wasn'tIt's only time until you find out it's only time until you find out it's only time until you find out it's only time until you find outdo you believe in things that you hear maybe you're wrong it isn't clear Another excuse for me to ignore it's not quite as simple as it was beforeShe said I wasn't even here She said I wasn't even She said I wasn't even here She said I wasn'tIt's only time until you find out it's only time until you find out it's only time until you find out it's only time until you find outI'm giving in it's coming out you gave it away I'm thinking about Not taking it you're faking it you're such a sad girl sad girl were did you leave why did you go

what were you thinking
I'd like to know

If walking away is all it's about
Then why did it take so long to figure outShe said I wasn't even here
She said I wasn't even here
She said I wasn'tIt's only time
until you find out
it's only time
until you find out
it's only time
until you find out
it's only time
