Million Voices

A Tributer

Tell me whod have thought that we would be so controversial
And stand up against the norm
Are we too outspoken, loud and messing up the comfortable
Well, weve been messed up alsoHow can we be silent
When a fire burns inside of us?Cause were a million strong and getting stronger still
Theyll remember we were here
With a million voices breaking silence till
Theyll remember we were hereWe were made to start the riot, take on the impossible
And we will slay the giants
We are done with fake religion fighting now to find the movement
Wont stop till we find itHow can we be silent
When a fire burns inside of us?Were a million strong and getting stronger still
Theyll remember we were here
With a million voices breaking silence till
Theyll remember we were hereWere a million strong and getting stronger still
Theyll remember we were here
With a million voices breaking silence till
Theyll remember we were hereWere a million strong and getting stronger still
Theyll remember we here
With a million voices breaking silence till
Theyll remember we were here
Theyll remember we were hereYou will remember
Yes, youll remember
You will remember
Yes, youll remember
