The Messenger

Yes

Judging by the voice
He was free to himself so real
We slaved ourselves to sacrifice
More than that we do not know
Then you hear him on the radio
He would play the sacred themes
That my children sang to me
Amazing as it seems
It was the answer to my dream
His heart that touches me
More than that I do not not know
Then I hear him on the radio
Remembering his every word
That my children sing to me
We have seen the world, this ecstasy
Now, my children sing to me
This loving place, beyond belief
You got to stand, stand to, to together
Keep the message alive
You got to stand, stand to, to together
To keep the message alive
Spirit up moving, spirit up
Rhythm of sun fire
You got to stand, stand to, to together
Keep the message alive
Listening for his words
He would speak in ancient verse
So we mesmerize a way to go
Reaching out the universe
Reaching out the universal
Not afraid to learn new words
That our children sing to us
We have seen the world, this ecstasy
So his children bring to us
This inner peace, beyond belief
You got to stand, stand to, to together
Keep the message alive
You got to stand, stand to, to together
To keep the message alive

Spirit up moving, spirit up
Rhythm of sun fire
You got to stand, stand to, to together
Keep the message alive
One voice, one world, one touch
One life truly, truly say it
One world, one voice
One touch truly, truly say it
Some people realize
Some people see it
From the beginning
One world one touch
One voice one life
One touch, one voice
One world, one life
