Not Gonna Get Us

T.a.t.u.

Just say
Then just 2 of us
Just lights
Of the aerodrome
We'll run away
They won't catch us
Further form them, further from home
Night guide
Hide our shadows
Behind the clouds
Behind the clouds
They won't find us
They won't change us
They can not touch
Stars with their hands
Sky will drop down
Night on our palms
They won't catch us
They won't catch us
Sky will drop down
Night on our palms
They won't catch us
They won't catch us
We'll run away
Everything will be easy
Night will fall down
Sky will drop it
And emptiness on the crossroads
And emptiness will not catch us
Don't say, they don't understand
Just without them, just mot past them
Better no way
But not return back
Just without them
Just without them
Sky will drop down
Night on our palms
They won't catch us
They won't catch us

Sky will drop down
Night on our palms
They won't catch us
They won't catch us
