

# When Life Gets Broken (feat. Heather Payne)

**Sandi Patty**

Hands reaching out with no one to hold  
You've been abandoned with no place to go  
Wounded and wanting, such desperate times  
Cold bitter tears are filling your eyes  
Get a glimpse of Jesus for He is right there with you  
He knows just what you need 'Cause when life gets broken, when you're in despair  
He'll carry your burden when it's too much to bear  
It's down in the valley where He'll give you strength  
And there is nothing you have lost that He can't replace  
He'll help you start all over again  
When life gets broken  
You hoped God would heal it, but the storm raged and raged  
Now it's hard to imagine how you'll make it through the day  
Weeks turn to years, time's passing you by  
But you're still holding on to the how's and the why's  
So get a glimpse of Jesus for He is right there with you  
He knows just what you need 'Cause when life gets broken, when you're in despair  
He'll carry your burden when it's too much to bear  
It's down in the valley where He'll give you strength  
And there is nothing you have lost that He can't replace  
He'll help you start all over again  
When life gets broken  
Healing waters heal our troubled souls  
Jesus, sweet Jesus will cleanse and make us whole  
When life gets broken, when you're in despair  
He'll carry your burden when it's too much to bear  
It's down in the valley where He'll give you strength  
And there is nothing you have lost that He can't replace  
He'll help you start all over again  
He'll help you start all over again  
He'll help you start all over again  
He'll help you start all over again  
When life gets broken
