

She Don't Need A Band To Dance

John Michael Montgomery

She's not much for thrills and says things with fancy frills
Don't turn her on
She seems so content workin' hard
To make our house a home
She's steady as a rock standin' by me
Even when I don't succeed
Lord I wish I could afford
The things she swears, she don't really need
She don't need a band to dance
It don't take wings for her to fly
Our love's gonna grow if there ain't much do-si-do
It's still gonna be alright
We make such pretty music
That you can tell at just a glance
When I take the notion, she seconds that emotion
She don't need a band to dance
She didn't say a thing
We had to pawn the ring, to pay the rent
What I make in overtime
Stacked against the bills, don't make a dent
Just when I think I'll let her down
And failed to be the man I oughta be
She still sees the bright side
Of everythin' includin' me
She don't need a band to dance
It don't take wings for her to fly
Our love's gonna grow if there ain't much do-si-do
It's still gonna be alright
We make such pretty music
That you can tell at just a glance
When I take the notion, she seconds that emotion
She don't need a band to dance
She don't need a band to dance
It don't take wings for her to fly
Our love's gonna grow if there ain't much do-si-do
