Schoolgirl

Poco

School girl won't you talk to me?
Show a little hospitality?
I'm a lonesome stranger in your college town baby
School girl won't you walk me round?School girl with your fancy looks?
Hey baby let me tote your books
Won't you try a little love you can't go wrong, darlin'?
School girl let me walk you homeYeah, it's a hey, hey
Hey yes and the sun is sinking down its a going away
It's a hey, hey
Alright, every nighttime is the right time to say okaySchool girl let me help you please
Have you studied 'bout the birds and the bees?
You can write a little paper on the rites of spring, baby
School girl sha la la le, yeahIt's a hey hey
And now the sun is sinking down and its going away
It's a hey, hey
Yes and the night time is the right time to say okay
Ground meSchool girl tell me what you say
Hey baby don't you turn away
Stop thinking over, honey, don't you want a romance?
School girl give me half a chanceOne more time how 'bout a hey, hey
Hey yes and the sun is sinking down its a going away
It's a hey, hey
Every nighttime is the right time to say okayHey, school girl give me half a chance
Yes baby, alright
