

Trippin'

ZZ Top

Ohh I got my guitar
Ohh my guitar I got a favorite place
In a favorite town
In a favorite foreign country
I been hangin' around It ain't too big
And it ain't to far
And then when you go
Crazy with our head in a jar And go trippin'
Trippin', away You got a secret slot
In a secret spot
And we could secretly freak out
If you gimme a shot And secretly meet tomorrow
If i tell what time
Tell me whats your name
And what's your sign Let's go trippin'
Trippin' away You can take your half
Or you can take mine
Its totally shine or totally blind
But one or the others gonna' work out fine We go trippin'
Trippin' away We go trippin'
Ohh we go trippin'
