Addicts of Communication

Randy

Addicts of communication
Addicts of communication
Addicts of communication
I need to communicate with you090-45776, useless
Hey baby pick up the phone I know that you're home useless
You know I don't like talking to your answering-machine useless
Well can I send you an e-mail, let you know how I feel uselessWe're the useless generation
In this world of information
We're the useless generation
Baby pick up the phoneAddicts of communication
Addicts of communication
Addicts of communication
I need to communicate, hello!Well nothing, I'm just watching T.V. useless
Looking for something so shallow that it's worth to see useless
They're making Belgian waffles in the U.S.A. useless
A buddy from the internet told me that the other day uselessWe're the useless generation
In this world of information
We're the useless generation
Baby pick up the phoneAddicts of communication
Addicts of communication
Addicts of communication
I need to communicate with youAddicts of communication
Oh pick up the phone
Addicts of communication
Oh baby, baby, pleaseAddicts of communication
I need to communicate with you
I need to communicate with you
I need to communicate but it's useless
