

Love and Devotion (Porgy and Bess Mix)

Joi Cardwell

Star light
Star bright
Please shine your light on me tonight
I pray
I can get away
Go where I need to be. Can I cross the line
What must I say to make u mine We all need some love
And devotion
We all need some
Love and devotion
Love and devotion Darling if u ever need a friend
Come to me
I always be
The thing that u want and you
You need I can do it in the nighttime
I can do it in the morning
Afternoon
Night of dark
We can do it in the park
It dont matter
I need some love and devotion We all need some love
And devotion
We all need some
Love and devotion
Love and devotion
