

# The Last Word

## Career Suicide

You can have it  
I don't want it  
An' when you've got it  
I'll be gone  
It won't matter  
What you're sayin'  
When the damage  
Has all been done  
Can't seem to keep the faith  
As if that's all I need to do  
I'd rather walk away than  
Take what belongs to you  
You can have it  
I don't want it  
And when you've got it  
I'll be gone  
It won't matter  
What you're sayin'  
When the damage  
Has all been done  
Some words will cut you down  
Like you were only in the way  
Why should I stand this ground?  
It won't hurt as much to say  
You can have it  
I don't want it  
And when you've got it  
I'll be gone  
It won't matter  
What you're sayin'  
When the damage  
Has all been done  
Sometimes we're blinded by  
The very thing we need to see  
I finally realize that you  
Need it more than you need me  
You can have it  
I don't want it  
And when you've got it

I'll be gone  
It won't matter  
What you're sayin'  
When the damage  
Has all been done  
The damage  
Has all been done
