Every Night

The Human Expression

Every night
I hope and pray
Well that your lovin' baby
Will come my way

I go to sleep
With one though on my mind
I love you baby
And I'm gonna make you mine

Now yes I'm gonne make you mine
Well no matter what you do
I'm gonna love you pretty baby
Til you like my love is true

Now if you want me
You know just what you gotta do
You gotta show me that you love me
You gotta prove your love is true

Well if you leave me
Now don't come back again
'Cause if you leave me
I'd want this misery to end

I'm gonna love ya
Love you baby all the time
I'm gonna love you little girl
Yes I'm gonna make you mine

Now yes I'm gonna make you mine
Well no matter what you do
I'm gonna love you pretty baby
Til you like my love is true
