Miracles

Air Supply

I was thinking about miracles
When you were fast asleep
Of all the things we tried to find
It's only love we keep

And I don't ever want to wake you
Your dreams are taking you so far
It's there that I can always touch you
For love is where you are

(CHORUS)
Fall upon me, take love from me
Nothing is more beautiful to see
Walk beside me, grow inside me
All I have, you gave to me

Each day another miracle
That time can never take
If time should come to claim you now
He knows it's much too late

So let the gates of dawn fly open
And cast your light for all to see
The chains of morning now are broken
And you are drifting into me

CHORUS (x2)
