

In The Name Of You

[Andrew Combs](#)

I know I don't talk much
And it seems to be when it comes to love
Well it's hard for me to speak my mind
And tell the world the truth
But I do it all in the name of you Well it's a crying shame for quite some time
I never found the courage to turn love to rhyme
But all it took was one look and I knew
That I'd do it all in the name of you The sun would fall
My skies would cry
My world would be so lonely
Without my one and only
Lying softly at my side
I know you've heard it all from my stupid mouth
Once I so sure
Once I so filled with doubt
Well we've all got questions
But there's one thing I can prove
That I'd do it all in the name of you
I'd do it all in the name of you
