

# Then the Night Comes

Billy Idol

In this world of wild illusion  
My room cold as the grave  
Yes she knows I never pull my shade Is it a fear, fear of madness  
Or some strange alchemy  
Is it a fear of fear itself  
I think I'll get deranged Then the night comes  
I'm gonna be free  
(Never enough then the night comes)  
Then the night comes  
I'm gonna be me Never enough, haunts my psyche  
Never enough, forever  
Never enough as I begin to shroooooom Here she comes so wild so horny  
My sony eyed medusa  
She's acting strange, insane  
Oh yeah, we're gonna get deranged Then the night comes  
She's gonna be free  
Yeah, then the night comes  
I'm gonna be me  
Then the night comes  
Baby make me  
If the devil comes  
He's gonna tangle with me I take some GHB  
I feel love, joy  
And wonderful ringing music  
Now, I just got to be me We're here now, embrace this madness  
We're here now, for sorcery  
We're here now, there is no sadness  
So take this town and bring it down When the night comes  
I'm gonna be free  
(Never enough then the night comes)  
Then the night comes  
I'm gonna be me  
Then the night comes  
Yeah, then she comes  
Mmm baby, I'm gonna be free  
Yeah yeah, then the night comes  
Wooo, then the night comes  
Come on, woo, then the night comes  
Come on yeah then the night comes

Then the night comes  
Mmm, then the night comes  
Alright, then the night comes  
Eyeeeeaaaaa, we're alright  
When the night comes
