Can You Handle It?

Sophistic

You, I thought that you already knew
You seem so broken and bruised
Don't act surprised cuz its
Now we're caught in the reality from your eyes
So are you into this or out
I'm getting tired of all the doubts
I thought that you saw me for who I am
And who you want me to be all the time
Its just another day
Of you running away again
It all comes down to this
Will you stay around
Will you join the crowd and quit
Can you handle it?
Can you handle it?
Hey what did you think I would say
Don't tell me you thought you'd change me
And all of the midnights stand and fuss
I'm doing what I really wanna do with my life
Its just another day
Of you running away again

It all comes down to this
Will you stay around
Will you join the crowd and quit
Can you handle it?
I thought that you would be waiting there
For me tonight but baby you
Have had enough of everything
I thought that you would be waiting there
For me tonight but baby you
Have had enough of everything
Its just another day
Of you running away again
Can you handle it?
Its just another day
Of you running away again
It all comes down to this
Will you stay around

Will you join the crowd and quit
Can you handle it?
Can you handle it?
Can you handle it?
Can you handle it?
