

# Always There

## Ricky Dillard & New G

Just when I needed Him, He showed me how He really cared.

By telling me, lo I am with thee

Just call my name and I'll be there Through the storm and through the rain

Through every heartache trial and pain

He's always there Just when I can't go on, living in doubt and in despair.

He showed up and said look up

He said I'm in control and I still care Trials great and trials small He said He'll deliver me from them all. All

He's always there He promised

Promised

Promised

Never to leave me

Always there

Always there

Always there

I just believe that God will be Always there

Always there

Always there

I just believe that God will be Always there

Always there

Always there

I just believe that God will be Always there

Always there

Always there

Down through the years God has dried every tear

I know

He's always there

He's always there
