

Hey Now Princess (Demo Version)

Cream

Look here princess
I'm not here just for you
So take off in your new Rolls Royce
I've got an important things to doLook here princess
I gave you everything
But I want it all back
So I can start some livingLook here princess
I want to be famous and rich
So I can be empty and bitter like you
Sitting home with nothing to doLook here princess
I've got 15 women called Sue
20 women called Jane
And I'm sad
Look here princess
Now I'm singin' this sad song
About a man in a kennel
Who cries all day longLook now princess
Don't shut me out for good
But keep me in your mind for later
Like I always knew you wouldPrincess look here
I'm in a desert now
See no way out
You've got to show me howLook here now princess
I've got 15 women called Sue
20 women called Jane
And I'm sad
Look here princess
I'm not here just for you
So take off in your new Rolls Royce
I've got an important thingsLook here now princess
I gave you everything
But I want it all back
So I can start some livingLook here princess
I want to be famous and rich
So I can be empty and bitter like you
Sitting home with nothing to doLook here now princess
I've got 15 women called Sue
20 women called Jane
And I'm sad
