Your Smile

Kyle Johnson

When my life got me down
I never knew what to do
Loneliness is all I found
So Iâ€˜d try to make it through
Fleeting thoughts of the past
When happiness fades fast
Touched by a lonely chill
An emptiness to fill
That day my ache went away
When I first met your gaze
I canâ€™t express how I felt
When your smile made me melt
How much you would change my life
When you became my wife
With ring in hand I knelt
Your smile made me melt
Thank you for choosing me
Your smile set me free
