

Galaxies

Stratovarius

Music by Tolkki, words by Tolkki/Kotipelto

Hear my call don't waste your time

remember what we're fighting for

Hear my voice take my hand

We've got to win this war

We were meant to be free

not to live in slavery

To the other Galaxie we go

gather all our strength before they know

Soon the time will come for all of us

to unite our souls and hearts

save the universe
