Just Sit Still

Radney Foster

The big shot stuck in front of me
He don't know what he's doin'
His blood pressure and cell phone bills
They're gonna be his ruinYou see minutes measure time
We all know that time is money
This traffic jam is God's little joke
But he don't think it's funnyTo just sit still, kill some time
Settle down, enjoy the ride
Take a breath, take it slow
Relax man, let it go
Just sit stillYoung man flips the bird
To what his elders have to say
Respect what time is doin' boy
Your life will take awayAll of that testosterone
That begs forgiveness now
Hell no one ever really held it
Against you anyhowSo just sit still, kill some time
Shoot the breeze, enjoy the ride
Take a breath, take it slow
Relax hon, let it go
Just sit stillTime's a precious gift
A treasure yes it's true
So I treasure every moment
That I get to waste with youThis crazy world is gonna spin
No matter what we do
Come on darlin' we need a nap
It's hot this afternoonSo just lay still, kill some time
Hold my hand, enjoy the ride
Take a breath, take it slow
Relax baby let it go
Just sit still, take it slow
Life's too precious to just let go
Just sit stillJust sit still
