

# Promise Me

## Dead By April

Into the fire on my own hey  
I know I wont see your face again hey  
Are you sitting there alone hey  
Are you thinking like me of the laughing times of all the sad and loving times  
Everything that's left of us is fading away.  
Promise me you think of us as a time so wonderful.  
Promise me you think of us still bright still colorful.  
Promise me to look back at us as a time in your life you enjoyed.  
Surrounded by flames everywhere  
What I used to be I'm not even there  
The absence of you is killing me hey  
Are you thinking like me of the laughing times of all the sad and loving times  
Everything that's left of us is fading away.

Promise me you think of us as a time so wonderful.  
Promise me you think of us still bright still colorful.  
Promise me to look back at us as a time in your life you enjoyed.  
Promise me Promise me I will be fine without you  
Promise me Promise me There's more in my life to see you  
Promise me Promise me I will be fine without you  
Promise me Promise me There's more in my life to see you  
Can you promise me to see you?  
Can you promise me..  
Promise me you think of us as a time so wonderful. (so wonderful)  
Promise me you think of us still bright still colorful. (still colorful)  
Promise me to look back at us as a time in your life you enjoyed.  
[x2]
