Night Stalker

DJ RAY & DJ LUCAS

Demon raider in the street
Every day is trick or treat
For devils dance within his mind
A witching hour for all timeLook out tonight
He's creeping up behind
Death by moonlight
His blade of steel will shineNightstalker coming for you, nighstalker
Prowler on the run, shadow striker with a gun
Nightstalker coming for you, nighstalker
You better run and hide or you know you're gonnaShadow rider on darkwing
Devils dance and demons sing
Siren songs into his mind
A dark prince of the fugitive kindDesire to rip your flesh tonight
And drink your blood til morning light
He licks his blade and sets his sight
A lone wolf running in the nightLook out tonight
He's creeping up behind
Death by moonlight
His blade of steel will shineNightstalker coming for you, nighstalker
Prowler on the run, shadow striker with a gun
Nightstalker coming for you, nighstalker
You better run and hide or you know you're gonnaLook out tonight
He's creeping up behind
Death by moonlight
His blade of steel will shineNightstalker coming for you, nighstalker
Prowler on the run, shadow striker with a gun
Nightstalker coming for you, nighstalker
You better run and hide or you know you're gonna
Feel it deep inside, creeping up behind ya
Better run and hide or you know your gonna die
