Indignation

Into Eternity

Immedicable
Irreversible
Lash out
Face my fears they're right before me
Rage envelops this state of mindMalignancy
Why is this happening to me?
Spreading slowly
The pain is just too hard to take
Fate eternal
EventualFade away into the dark of the night
Soon I'll never feel the sun upon my page
Lift away this burden that plagues me
IndignationI will dieSubstance to escape what's started
Accepting this corruption
Feeling so alone and helpless
Curse unforeseenEradication
False acception
Reach out but let down
There's nothing for me
Life is nothing to me anymoreFade away into the dark of the night
Soon I'll never feel the sun upon my page
Lift away this burden that plagues me
IndignationMalignancy
Why is this happening to me?
Spreading slowly
The pain is just too hard to takeFade away into the dark of the night
Soon I'll never feel the sun upon my page
Lift away this burden that plagues me
Indignation
