Tribute

John Newman

My tribute[Chorus]
It's all for you, it's all for you
For what you have shown me
It's all for you, it's all for you
For what you have made me
It's all for you, it's all for you
For what you have shown me
It's all for you, it's all for you
For what you have made me
Here's my tribute15, I had known to be
So confused, broken easily
Now I could not be off the memory but you're next to me18, you made me see
You lit the lights I've been dampening
Now I could not be off the memory but you're next to meMy passion was abused, my words were never used
But now I hope that you can seeThat it's all for you, it's all for you
For what you have shown me and what you do
It's all for you, it's all for you
For what you have made me, look how I grew
Here's my tribute23, now I'm taken in
This vicious whirl I was captured in
Now I could not be off the memory but you're next to meMy passion was abused, my words were never used
But now I hope that you can seeThat it's all for you, it's all for you
For what you have shown me and what you do
It's all for you, it's all for you
For what you have made me, look how I grew
It's all for you, it's all for you
For what you have shown me and what you do
It's all for you, it's all for you
For what you have made me, look how I grew
Here's my tributeIt's my tribute!
My tribute! Oh no!This life I've been brought
Life I've been leading
It's my life, it's my tribute
This life I've been brought
Life I've been leading
It's my life, it's my tributeAnd it's all for you, it's all for you
For what you have shown me and what you doIt's all for you, it's all for you
For what you have shown me and what you do
It's all for you, it's all for you

For what you have made me, look how I grew
It's all for you, it's all for you
For what you have shown me and what you do
It's all for you, it's all for you
For what you have made me, look how I grew
Here's my tribute
