

# Gunshot

## In Trance 95

Man in black and wearing shades  
He's the leader in the base  
Just one thing on his head  
How he's going to shoot him dead Man important waving hands  
Limousines and safety cars  
Smiling just to be pretentious  
One more reason he's not precious Crowd scared people gone  
Just the victim all alone  
Soon he's dead  
With a bullet inside his head
